

Sleeping Buffalo Dining Room & Lounge is newly renovated!

January 25, 2017 (Calgary, AB) - Known for its signature Rocky Mountain Cuisine and rustic atmosphere, the Sleeping Buffalo Dining Room at Buffalo Mountain Lodge in Banff, now has a more modern look.

Taking inspiration from natural elements surrounding the lodge such as wood and stone and incorporating additional natural materials such as granite and leather, the newly renovated dining room reflects upon the components that make up Banff's natural and stunning landscapes and the mountain lifestyle.

Surrounded by high vaulted pine ceilings made from post and beam architecture, the warm and intimate atmosphere within the dining room has remained just as cozy as before, but with a more contemporary look.

The Sleeping Buffalo Lounge has also undergone renovations including a new granite bar top, new pendant lighting, leather swivel chairs and new wood tables. The updated lounge is the perfect spot to relax in and have a glass of wine or a beer and split a charcuterie platter after a long day exploring the Rockies.
